

# MATHY BYBOLS

THE BELGIAN CREATIVE FACTORY

At Mathy by Bols, 9 months after the start of confinement, we think of your toddlers. We have been working for several months on a **new product** and we are proud to announce that **our Asymetry collection is growing!**

We offer you an **evolving co-sleeping cradle** that will accompany you from birth. A co-sleeping crib is generally used for up to 6 months of baby, but we have designed our co-sleeping crib to have an even longer lifespan since it **can be used either in an office or in a bench.**
